Attention: Mr. Jerry Austin

Dear Jerry:

We wanted to let you know how pleased we are with the experience we've had in working with Arise this past summer.

Your people did an excellent job in keeping us up to date on the status of the permit and OPA contract applications, and we couldn't be happier with the installation. Your on-site people were professional, knowledgeable, and courteous, and they left the site tidier than when they arrived. We were particularly impressed with the care they took when maneuvering their ladders within the constraints of our flower garden.

We are now eagerly awaiting the final step in powering up our new system, ie: the plugging-in of the export meter by our local utility. We plan to frame our first exported kWh and hang it beside our fuse box!

Yours truly,

Katie and Kurt
